

Projects and Energy Solutions

# Your Reliable Asset Management Partner

Distillery and Cogeneration Plants

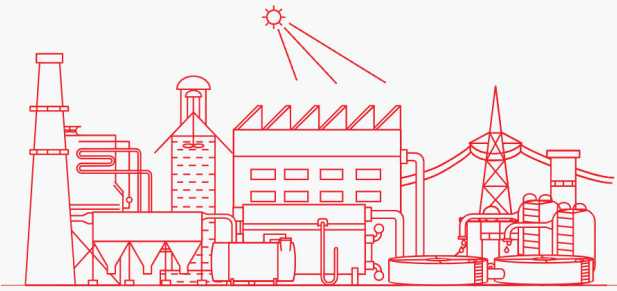

# Conserving Resources, Preserving the Future.

Thermax is a USD ~1 Billion company offering solutions in the energy and environment space and a trusted partner in energy transition. Spanning over 90+ countries, Thermax provides essential solutions to industries for clean air, clean energy, and clean water, along with performance engineered chemicals and digital solutions.

Thermax's operations are supported by ongoing research and development, and tie-ups with global technology majors. Today, Thermax has a sales and service network spread over Asia, the Middle East, Africa, Europe, and the Americas. It has a network of 45+ Indian and international subsidiaries, and 16 manufacturing facilities - 12 of which are in India and four overseas – Denmark, Poland, Germany and Indonesia.
